

high quality polyethylene plastic

# **CORE BOX**

robust - rigid - light

giving good drillcore protection for transport and storing  
maintaining good properties in all climates

## Technical information:

This Core Box is made in pressure moulded polyethylene.

Drill core storing capacity up to 38 mm (1 1/2") in diameter and 10 m (33 feet) in length.

Core Box weight: box 3,6 kg (7.94 lbs)  
lid (2 halves) 2,1 kg (4.63 lbs)

Total length : 1080 mm (42 1/2").

Total width : 480 mm (18 15/16").

Total height: 44 mm (1 3/4").

A meter rule is printed along the core grooves.

The box is equipped with pockets for identification plates.

Sunken locks make all surfaces obstruction free.

Guides provide stable stacking of boxes with or without lids.

Designed to take the weight of 30 full boxes.

Robust. Lattice framework gives rigid support. Double wall around the box and lid gives triple protection to the cores.
